

What is a personal injury lawyer?

A personal injury lawyer is an attorney who provides legal representation to individuals who claim to have been physically or psychologically injured as a result of the negligence or wrongdoing of another person, company, government agency, or entity. Personal injury cases often involve situations where someone has suffered harm due to accidents such as car crashes, slip and falls, medical malpractice, defective products, or workplace injuries.

Personal injury lawyers are typically skilled in tort law, which encompasses civil wrongs and economic or non-economic damages to a person's property, reputation, or rights. These attorneys help their clients navigate the legal process, negotiate with insurance companies, and, if necessary, represent them in court to seek compensation for their injuries and losses.

The compensation sought in personal injury cases can include medical expenses, lost wages, pain and suffering, emotional distress, and other damages. Personal injury lawyers often work on a contingency fee basis, meaning they only get paid if their client receives compensation through a settlement or a court judgment.

[Personal injury lawyers](#) provide legal representation to individuals who are seeking compensation for injuries they have sustained. This representation can involve negotiating with insurance companies, filing legal documents, and representing clients in court if a lawsuit is necessary.

They investigate the circumstances surrounding the injury to gather evidence that establishes liability and damages. This may include collecting witness statements, obtaining relevant documents, and consulting with experts.

Personal injury lawyers work closely with their clients, explaining their rights and advising them on the legal options available. They may also provide guidance on the potential value of a claim based on the facts of the case.
