

Conducting a closing review and creating maintenance plans for sustained care.

Open communication with stakeholders at each step keeps historic preservation as the guiding focus.

Why Choose Henson [Henson Architecture](#) Architecture for Historic Building Restoration?

Founded in 2003, Henson Architecture focuses on authentic preservation and sustainable reuse, achieving award-winning results from NYC to the East Coast.

Through their unique approach—melding craft, sustainability, and leadership—Henson Architecture is the ideal partner for rejuvenation.

The firm’s commitment to *‘‘Preserve the Past. Perform the Future.’’* captures their mission to revitalize historic buildings so they continue to serve communities while respecting their stories.

No matter if the focus is on original windows, the interior, or the construction envelope, their approach is rooted in respect for history and anticipation of the future.

Take the first step in your restoration process with Henson Architecture to benefit from professional restoration services that protect, rehabilitate, and uplift your historic buildings—preserving heritage and boosting performance for future generations.
