If you're flying with Allegiant Air, it's important to understand the [allegiant suitcase weight](#) policy before arriving at the airport. Allegiant is known for its low base fares, but baggage fees can quickly increase your travel costs if your luggage exceeds the airline's limits. By knowing the allegiant airlines baggage weight rules and the allegiant air carry on bag size, you can avoid unexpected charges and enjoy a smoother travel experience.

## Allegiant Checked Baggage Weight Policy

Allegiant is fairly strict when it comes to checked baggage. The standard allegiant suitcase weight limit for a checked bag is 50 pounds (22.7 kg). Bags weighing more than this limit are considered overweight and are subject to additional fees.

To avoid paying extra:

- Weigh your suitcase before leaving home.
- Distribute heavy items between multiple bags if possible.
- Purchase baggage online before your flight for lower rates compared to airport pricing.

Packing within the approved allegiant airlines baggage weight limit helps you save both time and money.

## Allegiant Air Carry-On Bag Size

In addition to weight restrictions, passengers should also follow the [allegiant air carry on bag size](#) guidelines. A standard carry-on bag must fit within the airline's approved dimensions and be stored safely in the overhead compartment.

Your carry-on should generally measure no more than:

- 22 x 14 x 9 inches (including wheels and handles)

Passengers are also allowed one personal item that fits underneath the seat in front of them. Although Allegiant does not publish a strict weight limit for carry-on bags, travelers should be able to lift the bag into the overhead bin without assistance.

## What Happens If Your Bag Is Overweight?

If your allegiant suitcase weight exceeds 50 pounds, you'll typically need to pay an overweight baggage fee. Extremely heavy bags may not be accepted if they exceed the airline's maximum allowable weight.

To prevent delays at check-in:

- Use a luggage scale before traveling.
- Remove unnecessary items.
- Consider purchasing an additional checked bag if needed.

Planning ahead is often much cheaper than paying overweight fees at the airport.
